Heavy Precipitation.

The Rain Still Falling All over the State—Snow in the Mountains.

SACRAMENTO, December 9th.—The storm that began before Thanksgiving Day continues to rage with unabated fury. Skilled in predicting weather, says all indications are yet good for more rain. Clouds and rivers are moving over certain sections of roadways, and falling rocks smashed windows in a passing train. Near Germantown there was a cave-in, and the water was up to three feet in depth at the summit, and about twenty inches at the bottom, but the big rotary engine and the water let run into the estuary, and the water level was down to the sills.

Four men have been arrested for violating the Chinese Exclusion Act.

SENATOR BOWERS NOT DEAD.

Chinese Coming over the Mexican Line—Six Captured.

SAN DIEGO, December 9th.—The San Francisco Chronicle's special correspondent for San Diego on the death of Senator W. W. Bowers, who had been ill for several weeks, died instead of paper the full particulars of the Senator's death. As a result of the mistake of the newspaper, however, it was learned that the Senator had died on December 7th.

FOUR CHINAMEN NOT DEAD.

Five thousand electric lights illuminated the interior of the cathedral, to the brightness of the sun, and the descent of the various colored lights over the stage, the magnificent presentation of the organ, the singing of the choir, and carved mahogany pillars, the handsome gilded rows of boxes known to modern decoration, the most distinguished and critical audiences in America, rendered the occasion one long to be remembered.

Four years ago F. W. Peck and a large number of other citizens of San Francisco conceived the idea of erecting the building that would be the home of the Curran's Railroad by the syndicate headed by Mr. Morris, the Los Angeles, San Diego and San Joaquin lines.

BRAZIL.

According to an interview with Dom Pedro, that ex-monarch confesses that he has all along been anxious that the people of Brazil should progress to that stage where they would be fitted for a free government and capacitated to insure its permanency. But he believes that they have not been sufficiently educated in that direction as yet, and he fears, therefore, that the republic will fail. It is absurd, he insists, to compare the people of Brazil with those of the United States of North America in the matter of capacity for self-government. In fact, he says, the Brazilians possess more imagination than common sense politically. The hope should be that Dom Pedro is mistaken in his judgment, and that the exigencies of the hour may develop political forces and wisdom that have been latent in the people, and that they will be so wisely guided as to insure the life of the new republic by some means, either a military stage, but it must be confessed that Dom Pedro is a man of such cool and careful judgment that his opinion is entitled to great respect. As a wise ruler of the Brazilians for the better part of a half century he must have studied the capacity of his people thoroughly and must understand them well. But should the new republic fail, the fact that it was attempted, and for a time succeeded, will forever render any monarchy that may succeed it unstable, and subject it to the liability of overthrow on the slightest pretext. If not now, eventually, and in the near future, the Brazilians will be a self-governing people.

A few days ago said that Kentucky's president, who is still as a man of high spirits, endurance and health, is not looking forward at the present time that it was ten years since this statement became applicable to quality as well as quantity. He has made a good record in California and Tennessee, and gave them due credit in the various places to which he has been sent. But we considered their importance second to that of Kentucky, and never dreamed of anyone questioning the fact.—*Louisville Courier-Journal*.

No, we suppose you have not dreamed of any challenge of that kind being made.

But if the Journal will give attention to the claims of California and the facts by which they are fortified, it will understand why Kentucky's claim of pre-eminence is questioned. We are young as yet in the business, but the natural advantages this State possesses for breeding fine stock will certainly give her first place in the business. The stock-growing of California is certain to do more for her than the Blue Grass region for Kentucky. It may grain the Kentuckian, but he might as well make up his mind that his State must take second place, and that very soon.

It is difficult to see how Secretary Proctor could have acted differently with consistency than he did in declining to dress the War Department buildings in mourning for Jefferson Davis. The custom of thus recognizing the death of ex-Secretaries is not a law, nor is it usage that may not be violated with entire propriety where the deceased has occupied such a peculiar relation towards the Government, as has Jefferson Davis. The Secretary is right in his refusal and to be commended for it. The friends of Davis were misguided in asking the incumbent Secretary to draw the Department buildings.

GENERAL Boulanger is coming to this country to lecture. Now, what have the people of the United States done that they should be thus indicted? Is the lecture platform in America to become the asylum for all the world's failures? Perhaps, however, we can endure Boulanger if the assurance is given that he lectures for the benefit of the patient, suffering, deserted wife in Paris.

PRECISELY as was anticipated, the New York Times finds nothing in the message of President Harrison to command. It may be that fault-finding and law-picking are the indices of independent journalism, but it is not so understood in this enlightened West.

EX-QUEEN ISABELLA, in the bitterness of her heart, declares that the people of Spain are ungrateful. It would be interesting information, if the Queen can give it, to know what the Spanish people owe her gratitude.

Under this Government vast powers are often given to the auditors, who are often called upon to discharge their duties and expand the law in times of great public excitement, and when a just decision may be, for the moment, very unpopular. In such cases, the auditors frequently frequently depend upon the broad maxims which may for the time being occupy the bench.

In private life it is esteemed commendable for a man to change his opinion when he is convinced that he is in error. The mistake with which he is made is to insist upon it.

City Prison Supplies—The Electric Light Bids—Etc.

The City Trustees held their regular weekly session yesterday. Present Mayor Gregory and Trustees McLaughlin and Wolf.

The Chief Engineer of the Water Works reported that during the week 19,731,850 gallons of water were pumped, the Holly pump running 168 hours.

Charles Voegel informed the Board by letter that he had signed the petition for the improvement of Twelfth street under a misspelling.

The Board ordered that Twelfth-street property-owners be cited to appear next Monday, and show cause why that street should not be improved.

The matter of opening bids for electric lighting was on motion of the Mayor, continued two weeks, as sufficient time had not elapsed for the committee to thoroughly investigate the bids.

Trustee McLaughlin moved that the Board advertise for bids for furnishing 150 electric lights, or 75 electric and 200 gas lights, the bids to be opened in two weeks.

Mr. Complained of the condition of the alley between J. K. Eleventh and Twelfth streets, and the matter was referred to the Health Officer.

L. C. Chandler was directed to have a man sidewalk laid in front of a piece of property on P street, between Fifth and Sixth, for which he is agent, within five days.

The matter of awarding contracts for improving K street, from Twenty-sixth to Thirty-first, and Twenty-eighth, from K to M, coming up, Claus Anderson and other property-owners appeared before the Board and remonstrated against the awarding of contracts to men they knew to be dishonest, owing to the bad condition of the street, for hauling material contractors could not do the work as cheaply as they could a few months later.

After considerable discussion over the matter, the Board finally ordered that all bids be rejected, and that the time for receiving new bids be extended to March 1st next.

Bids were opened for improving Twelfth street from B to C, and from G to H, and the awarding of contracts thereto postponed for one week.

Bids were opened for furnishing supplies to the city prison, and were, on motion of Trustee McLaughlin, referred to the Mayor and Auditor, to report thereon at the next meeting.

Bids for doing the city job printing were received from Day & Johnson, \$1,000; and Co. The bidmen were present, and after some consultation it was agreed that the matter should be left to the Trustees to formulate a schedule of prices for the various kinds of prints required, and then have the bids done wherever they could be obtained.

Proposals for doing the city advertising for one year were received from the Recording Union, and \$1,000 from the San Joaquin, \$1,000; and from the San Joaquin, \$1,000; next two insertions, each 75 cents; every subsequent insertion, 50 cents. The latter's bid was for Paperline, first insertion, \$20; 10 cents each; second insertion, \$10; 10 cents each; third insertion, \$10; 10 cents each.

The bids were referred to the Mayor and Auditor—they to confer with the State Printer—and a report to be submitted at the next meeting.

Mr. Ray was reading on Q street, between Twenty-fourth and Twenty-fifth, made a plea for cross walks, saying that the streets "are in such wretched condition that children have great difficulty in getting across them." He represented property-owners on Fifteenth street, appeared before the Board to make a statement concerning the matter of the improvement of Fifteenth street. He demurred to being obliged to pay the cost of the work, and the property the property at the rate of the contract awarded to Bassett & Tuohy last week. Mr. Ray said he had heard the charge made that a member of the Board was interested in this project.

Each member of the Board demanded to know who the suspected member was.

Mr. Ray said he did not charge it himself, but had heard it so remarked.

Then came the opposition between Mr. Bassett and Messrs. Bassett and Tuohy, the latter persisting in the statement that their bid was regular and legal and the Board had formally awarded them the contract.

It transpired during the wrangle that "the member of the Board" whom Mr. Ray said he had heard mentioned in connection with Bassett & Tuohy's contract was Clerk Michael J. Tuohy.

The Board indignantly denied the truth of any such imputation, and as Mr. Ray could give no authority for the statement, the Board declined to take notice of it.

Mr. Tuohy said that on one occasion he had received a letter stating that there was a bid on the other side—that his firm had been encumbered out of its just rights.

S. Dwyer was awarded the contract for supplies to the city prison, bid at \$2 per 100 pounds. Curtis Bros. bid \$100 per ton, H. Schulmeyer with meat at 5 cents per pound.

RENTER SESSION.

Reassembling in the afternoon the Board canvassed the returns of the late school election. The results remained to be certified, and the results published.

Several bills for services, rent, etc., growing out of the election were ordered paid.

The petition of the Sacramento Transportation Company for the privilege to erect a wharf 100' long on the river front, below O street, was granted.

The petitioners concede the right of the public to use the wharf for the discharge of wood, lumber, etc.

Trustee Wolf stated that he had been informed that no license was paid by the proprietor of the Conique Theater, and on his motion the Board voted that a license be granted to the theater.

A donation was made as to the necessity of devising some kind of filtration for the city water. Mayor Gregor thought a filter of gravel could be constructed with comparative ease, and at small expense.

Trustee Wolf said he was in favor of prompt action in the matter, and at his suggestion the Mayor was instructed to communicate with the engineers using filters at Denver and Foothills Col.

Trustee McLaughlin brought up the subject of a new charter. Trustee Wolf wanted the matter of selecting fifteen freeholders to frame a new charter made the special order for next Monday.

Mayor Gregor thought that the Board had merely to select a day for the election, and finally the matter was laid over till next week and the City Attorney requested to be then present.

## CONGRESS RESUMES ITS LABORS.

Congressman Kelley, the "Father of the House," Writes a Letter to Speaker Thomas Reed.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

## CONGRESSIONAL PROCEEDINGS.

The Chairman of the House Refers to Jefferson Davis in His Prayer.

WASHINGTON, December 9th.—In his prayer this morning in the House, the Chairman referred to Jefferson Davis, saying: "With malice toward none, with charity for all."

The Committee on Rules reported a resolution authorizing the Speaker to appoint the standing and select committees.

A House of Representatives of the State of New York introduced a bill defining the duties of the Sergeant-at-Arms. It adds to those of the Sergeant-at-Arms the duty of investigating the conduct of members of Congress.

A number of resolutions were introduced, among which was one to prohibit the majority of the members by the appointment of the following committees:

One is to give the speaker authority to determine the time and place for debate, and to refuse to recognize such a motion.

This is similar to the practice in the French Chamber of Deputies and the English House of Commons.

The other provides to provide that during the course of the day, and that a motion to adjourn may not be made until the lapse of a period from the time of its last being voted on.

There are three other provisions will vigorously oppose the Democrats, under the leadership of Mr. Carlisle.

Speaker Reed will not be able to do much in the way of discussing the rules.

There is certain to be a hard, tough, and perhaps prolonged fight over the rules, and while a vote of the House of Representatives and the Senate are as follows: McKinley, Burrows, Bayne, Bixby, McKenna, Payne, McMillan, Gage, Brewster, McLean, Bradford, McRae, Arkansas, and Flower. An Appropriations Cannon, Butterworth, McCormick, Henderson of Indiana, and McCullough, and the House of Representatives, O'Brien, Farrel, Outhwaite, Main, Sherman, Dalzel, Berger, Greenhorne, Comstock, Crisp, O'Farrell, Outhwaite, Main, Sherman, Dalzel, Berger, Greenhorne, Comstock, Crisp, O'Farrell, Outhwaite, Main, Mileage, Lind, Townsend, of Pennsylvania, Wallace, Massachusetts, Clinch of Tennessee, Wallace, Clinch of Tennessee, and the House of Representatives.

IN THE SENATE.

WASHINGTON, December 9th.—A large number of petitions were presented to the Senate to-day and referred to appropriate committees.

The first petition was one by Manderson from the State Board of Agriculture of Nebraska, in favor of Chicago as the site for the world's fair.

Petitions were received from various States in favor of a national Sunday rest law, and one from the State Education Department in favor of the same.

Among the numerous bills introduced and referred to the Senate:
